

## TIME AND ATTENDANCE

Saving time for the important things in life ....

Cloudpass time and attendance is designed for even the harshest of environments, the Cloudpass Kiosk incorporates an industry grade touch screen with government approved biometric fingerprint reader.

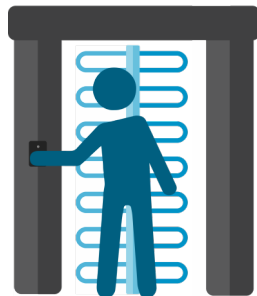

Our comprehensive list of reports and timelines ensure your business runs smoothly with accurate and reliable information which cannot be tampered with.

We take security very serious and have partnered with ievio to use their government approved IP65 rated ultimate reader. The ultimate reader ensures that the fingerprint image is not stored to guarantee it cannot be reverse engineered.

Using the latest technology for time attendances ensures security and accuracy.

Our time and attendance solutions can also be integrated into access control.

Easy reporting with real time statistics. Customisable reporting for time and attendance.

---

**Bespoke** : Our time attendance solutions can range from fingerprint to pin pad entry with customisation to help promote your business.

---

**Secure** : Designed using high grade materials and government approved biometrics our system will guarantee success.

---

**Cost-effective** : As our kiosks are sourced and built in house we provide a fantastic product at reasonable cost to add real value to any business. Our self service kiosk reduce the cost of having a member of staff fulfilling the same duties.

---

**Time Saving** : Our time and attendance system is designed to save time for your finance and HR staff whilst also improving foot flow through your sites.

## OUR APPROACH

Since being founded Cloudpass has grown organically to become a market leader in software and hardware development. We promote honesty, hard work and put emphasis on our core values in every aspect of our business.

Cloudpass helps organisations take advantage of modern technology to reduce cost and increase productivity whilst managing security risks.

With cyber threats constantly evolving through multiple attack vectors such as ransomware, phishing, spamming and many more we pride ourselves on focusing all our products around security.

At Cloudpass we are committed to building relationships that last. This means ensuring high standards as well as taking proper account of the impact and footprint left by our company. We are focused on sustainability and put emphasis on our principals and values at all times to ensure we continually set the highest standards.
